This message will be sent to PHS families this evening.

Dear Palisades Families,

As noted in previous communications, please continue to monitor your children for symptoms of COVID on a daily basis. Symptoms of COVID may appear to you like a common cold, stomach bug or allergies; however, only a healthcare provider can determine if the symptoms your child is displaying are from an illness other than COVID. Please keep your symptomatic child at home and contact a healthcare provider.

Kindly notify our nurses of any COVID-related developments at covidnurse@palisadesd.org - this is extremely important and allows us the opportunity to quickly perform a case investigation and execute the necessary follow up if as a positive case is reported.

COVID Notification:

Today, February 2nd, the Palisades School District received notice that a Palisades High School student (face to face) tested positive for COVID-19.

The district, working in collaboration with the Bucks County Health Department, has completed a case investigation, contact tracing, and cleaning and disinfecting of contact areas as required. Close contacts, if any, have been notified. (A close contact is defined as a person who was within six feet for 15 minutes or more of a positive case.)

As a result and per the recommendations of the Pennsylvania Department of Education (PDE) as found at this [LINK](#), the school will not be closed for in-person or online instruction due to this positive case.

Thank you for your continued support of our staff and students.

Sincerely,

Dr. Bridget O'Connell

Superintendent

Palisades School District would like to continue connecting with you via email. If you prefer to be removed from our list, please contact Palisades School District directly.
